PRE-ORDERING THE QUANTITIES NEEDED FOR NEXT YEAR

Purest Origin

Our supply chain is fully traceable and certified.

Rich in Active Substances

We source only the latest harvest—no long-term storage.

Always competitive pricing

We provide the best price-quality ratio.

HARVEST.

From collection to packaging

1. Hand harvest
2. Hand sifting and storing of freshly plants
3. Drying
4. Hand sifting and storing of dried plants
5. Packaging in paper bags
6. Storage

CARING ATTITUDE

- are produced hygienically in order to reduce the microbiological load to a minimum;
- are handled with care so that medicinal plants and herbal substances are not adversely affected during collection, cultivation, processing, and storage.

About Herbs

REASONS TO WORK WITH US

We have been harvesting medicinal wild plants for 10 years. Our harvest area is the Republic of Moldova. We understand the plants we work with.

Each species is harvested at its prime stage of development in a way that has a minimal impact on future plant populations. Each herb has a harvest season (see our price list below). Please order before the harvest season starts. We will harvest and ship your herbs when they are ready. We sometimes have a few dried herbs in stock; see the list below.
